

Advanced Facial Plastic Surgery Center announces the opening of its newest Dallas medical office. Customized Restylane and Botox treatments, and surgical consultations are now being offered.

The Advanced Facial Plastic Surgery Center, located on Preston Road in the Signature Place Building, opened the doors of its new, state of the art facility last month. Dr. Benjamin Bassichis, medical director, offers the latest in facial plastic surgery and skin aesthetics to help keep you looking your best.

(PRWeb via [PRWeb](#)) March 16, 2004--More and more people are searching for ways to make themselves look and feel younger. The Advanced Facial Plastic Surgery Center, located in the Signature Place Building, opened the doors of its new, state of the art facility last month. Dr. Benjamin Bassichis, medical director, offers the latest in facial plastic surgery and skin aesthetics to help keep you looking your best. The Advanced Facial Plastic Surgery Center offers a wide range of cosmetic treatment options and the convenient Preston Road location is easily accessible, with reserved complimentary parking for their patients.

The main focus of the practice is patient satisfaction. Using the latest proven techniques in Facial Plastic Surgery and Skin Aesthetics allows Dr. Bassichis to excel in his practice. Customized Restylane and Botox treatments can help erase unwanted facial lines. The advanced technology of Photofacial treatments can diminish skin and pigment irregularities, as well as rejuvenate at the same time.

Personalized attention to every detail during surgical consultations allows patients to make an educated decision based on facts, not impulse. Not every goal can be realistically achieved with facial plastic surgery. Dr. Bassichis will personally discuss your facial aesthetic goals in depth. Together, the patient and Dr. Bassichis will agree on the best treatment plan, which may include staying out of the sun, wearing better sunscreen, and a healthy skin care regimen. The decision to have facial plastic surgery should not be rushed, but a path that has been well thought out, with all options carefully analyzed.

For appointments at their newest office, please call the Advanced Facial Plastic Surgery Center at (972) 774-1777 to schedule a complimentary consultation with Dr. Bassichis. Also, see their health tips in the North Dallas, Plano, and Frisco editions of Living Magazine.
