

Voted D Magazine's Best Plastic Surgeon and Top Doctor in America, Dr. Benjamin Bassichis is double board certified by both the American Board of Facial Plastic and Reconstructive Surgery and the American Board of Otolaryngology-Head and Neck Surgery. Dr. Bassichis' practice is unique in that he focuses exclusively plastic and reconstructive procedures of the face, head and neck. His holistic approach to facial rejuvenation promotes natural surgical results that allow his patients' own beauty and health to shine without appearing "done" or artificial. In addition to surgery, Dr. Bassichis' comprehensive Facial Health Maintenance Program advocates a life-long commitment to superior skin health, beauty, and facial rejuvenation. With his patient-centered philosophy of medicine, he cares for his patients as he would his own family: with honesty, integrity, and meticulous attention to detail.

A leading national expert in facial injectibles, Dr. Bassichis is on the forefront of this technology that has revolutionized facial rejuvenation. Because Dr. Bassichis personally performs all injectible treatments himself, he has the opportunity to develop strong, long-term relationships with his patients. As the only Double Black Diamond Facial Plastic Surgeon injector in the state of Texas, Dr. Bassichis is a national educator and researcher in the most advanced techniques in Botox, Dypport and other injections. He is also a national and local trainer teaching other Physicians in the art of injecting Restylane, Sculptra, Juvederm, and other facial fillers. In addition, the Advanced Facial Plastic Surgery Center is a regional teaching facility for leading laser companies allowing them to showcase and educate in the latest technologies the Laser sciences have to offer, including facial rejuvenation and laser hair removal.

Devoted to his field of facial plastic surgery, Dr. Bassichis is a respected and skilled surgeon with a distinguished education including prestigious fellowship training in facial plastic surgery at the esteemed University of Illinois at Chicago, where he was personally mentored by world renowned facial plastic surgeons, Drs. Regan Thomas and Dean Toriumi. Dr. Bassichis is an invited lecturer worldwide and has authored more than 50 scientific chapters and papers as an authority in his field. He is a Clinical Assistant Professor at the University of Texas-Southwestern Medical Center, where he instructs training physicians in facial plastic surgery. Winner of the prestigious John Orlando Roe Award for his outstanding research in new techniques of facial rejuvenation, Dr. Bassichis is dedicated to providing his patients with the best of art and science in facial plastic surgery. Dr. Bassichis volunteers at the Dallas Veterans Administration Hospital to provide surgical services to our nation's local veterans. Dr. Bassichis and his wife, Michelle, who is also a physician, are dedicated to numerous philanthropic causes. They live in Dallas with their three young children, and their dog (a Rhodesian Ridgeback named Delilah). Dr. Bassichis enjoys horses, tennis, art, skiing, and golf, but he loves spending his free time with his family most of all.
